CLINICAL BIOMECHANICS

INDEX: VOLUME 7 1992

SUBJECT INDEX

absorptiometry
  hip replacement, femoral bone, histomorphometry, 153
anatomy
  lumbar spine, psoas major, muscle, 109
ankle joint
  prosthesis, screws, fixator, external, 125
arthroplasty
  shockwaves, lithotriptor, femur, 47
autograft
  stress-shielding, patellar tendon, ligament, 226
balance
  ground reaction force, posture, cerebellar ataxia, 208
bone
  fixator, external, stiffness, stress–strain, 231
cartilage
  prosthesis, medial meniscus, knee, 97
cerebellar ataxia
  ground reaction force, balance, posture, 208
cervical spine
  tectorial membrane, instability, 201
chair
  ergonomics, tiltable seat, spontaneous movement, 87
chondromalacia
  knee pain, patellofemoral joint, 67
computed tomography
  lumbar spine, stenosis, 3
creep
  lumbar spine, flexion, low-back pain, 43
  spine, sitting, kinematics, 59
dynamic strength
  trunk muscle, low-back pain, 55
electromyography
  gait, ischaemia, 215
ergonomics
chair, tiltable seat, spontaneous movement, 87
  low-back pain, lumbar spine, model, 138
Euler stability
  lumbar spine, model, 27
femoral bone
  hip replacement, histomorphometry, absorptiometry, 153
femur
  shockwaves, lithotriptor, arthroplasty, 47
fixator, external
  ankle joint, prosthesis, screws, 125
  fracture healing, stiffness, 75
  stiffness, bone, stress–strain, 231
flexion
  lumbar spine, low-back pain, creep, 43
footwear
  force plate, impact, locomotion, 181
force
  muscle, strength, measurement, 33
force plate
  impact, locomotion, footwear, 181
fracture
  fixator, external, healing, stiffness, 75
gait
  knee, moment, osteoarthrosis, 91
  osteoarthrosis, hip joint, knee joint, 177
  electromyography, ischaemia, 215
gender variation
  lumbar spine, paraspinal, muscle, 120
ground reaction force
  balance, posture, cerebellar ataxia, 208
hamstring
  muscle, lumbar spine, pelvis, 38
  knee, ligament, stiffness, 131
healing
  fixator, external, fracture, stiffness, 75
hip joint
  gait, osteoarthrosis, knee joint, 177
hip replacement
  femoral bone, histomorphometry, absorptiometry, 153
histomorphometry
  hip replacement, femoral bone, absorptiometry, 153
impact
  force plate, locomotion, footwear, 181
instability
  sacrioliac joint, sacrum, pelvis, 170
  cervical spine, tectorial membrane, 201
ischaemia
  gait, electromyography, 215
isokinetic
  low-back pain, muscle, 195
isokinetic lifting
  low-back pain, strength, 149
isokinetics
  pain, patellofemoral joint, 240
joint load
  knee, rehabilitation, strength, 104
joint moment
  model, linked segment, lifting, 161
kinematics
  spine, creep, sitting, 59
knee
  joint load, rehabilitation, strength, 104
  prosthesis, cartilage, medial meniscus, 97
  gait, moment, osteoarthrosis, 91
  hamstring, ligament, stiffness, 131
knee joint
  gait, osteoarthrosis, hip joint, 177
knee pain
  chondromalacia, patellofemoral joint, 67
lifting
  model, linked segment, joint moment, 161
ligament
  hamstring, knee, stiffness, 131
  stress-shielding, patellar tendon, autograft, 226
linked segment
  model, lifting, joint moment, 161
lithotriptor
  shockwaves, arthroplasty, femur, 47
locomotion
  force plate, impact, footwear, 181
low-back pain
  lumbar spine, flexion, creep, 43
  dynamic strength, trunk muscle, 55
  ergonomics, lumbar spine, model, 138
  isokinetic lifting, strength, 149
  isokinetic, muscle, 195

lumbar spine
stenosis, computed tomography, 3
model, stability, theory, 19
Euler stability, model, 27
flexion, low-back pain, creep, 43
muscle, hamstring, pelvis, 38
paraspinal, muscle, gender variation, 120
psoas major, muscle, anatomy, 109
low-back pain, ergonomics, model, 138
measurement
muscle, strength, force, 33
medial meniscus
prosthesis, cartilage, knee, 97
model
lumbar spine, stability, theory, 19
Euler stability, lumbar spine, 27
linked segment, lifting, joint moment, 161
low-back pain, ergonomics, lumbar spine, 138
Moiré topography
thoracolumbar, vertebra, posture, 80
moment
gait, knee, osteoarthrosis, 91
muscle
strength, force, measurement, 33
lumbar spine, hamstring, pelvis, 38
lumbar spine, paraspinal, gender variation, 120
lumbar spine, psoas major, anatomy, 109
isokinetic, low-back pain, 195
osteoarthrosis
gait, knee, moment, 91
gait, hip joint, knee joint, 177
pain
isokinetics, patellofemoral joint, 240
paraspinal
lumbar spine, muscle, gender variation, 120
patellar tendon
stress-shielding, autograft, ligament, 226
patellofemoral joint
knee pain, chondromalacia, 67
isokinetics, pain, 240
pelvis
muscle, lumbar spine, hamstring, 38
sacroiliac joint, sacrum, instability, 170
posture
thoracolumbar, vertebra, Moiré topography, 80
ground reaction force, balance, cerebellar ataxia, 208
prosthesis
cartilage, medial meniscus, knee, 97
ankle joint, screws, fixator, external, 125
psoas major
lumbar spine, muscle, anatomy, 109
rehabilitation
knee, joint load, strength, 104
sacroiliac joint
sacrum, instability, pelvis, 170
sacrum
sacroiliac joint, instability, pelvis, 170
screws
ankle joint, prosthesis, fixator, external, 125
shockwaves
lithotriptor, arthroplasty, femur, 47
sitting
spine, creep, kinematics, 59
spine
creep, sitting, kinematics, 59
spontaneous movement
ergonomics, chair, tiltable seat, 87
stability
lumbar spine, model, theory, 19
stenosis
lumbar spine, computed tomography, 3
stiffness
fixator, external, fracture, healing, 75
hamstring, knee, ligament, 131
fixator, external, bone, stress–strain, 231
strength
knee, joint load, rehabilitation, 104
muscle, force, measurement, 33
isokinetic lifting, low-back pain, 149
stress-shielding
patellar tendon, autograft, ligament, 226
stress–strain
fixator, external, stiffness, bone, 231
tectorial membrane
cervical spine, instability, 201
theory
lumbar spine, model, stability, 19
thoracolumbar
vertebra, posture, Moiré topography, 80
tiltable seat
ergonomics, chair, spontaneous movement, 87
trunk muscle
dynamic strength, low-back pain, 55
vertebra
thoracolumbar, posture, Moiré topography, 80
